Mission

To provide an environment for the cultivation of creative, motivated and highly skilled engineers to partner in social and national development.

About Us

Maulana Mukhtar Ahmad Nadvi Technical Campus (MMANTC) is located at the outskirts of Malegaon, the textile township of northern Maharashtra. On the other side of the campus is the Girna River full of its rocky spread and quiet moving water that provides the much needed ambience necessary for a center of higher learning and research.

The Technical Campus has been a dream project of the Society's President, Maulana Arshad Mukhtar, a great visionary, philanthropist, industrialist, educationist, and a worthy son of a worthy father, Maulana Mukhtar Ahmad Nadvi, who founded Jamia Mohammediya Education Society(JMES) in the year 1978. JMES has twelve institutions running in various parts of the country. Maulana Mukhtar Ahmad Nadvi strongly believed that only through education would the people of India, gain the vision of the future while preserving their timeless cultural values. Maulana Arshad Mukhtar, having taken the mantle from him in the year 2007, has been painting the canvas with such elegance that Jamia Mohammediyah Education Society is now a name in the country to reckon with.
